› Usage rights can be differentiated as follows

- › geographical restriction (e.g. *only for Germany*)
- › type restrictions (e.g. *only for print*)
- › exclusive (no-one else has the right) vs. non-exclusive (other people may also get the rights)
- › copyright transfer agreement (Anglo-Saxon culture)
- › total buy-out

TRANSFER OF COPYRIGHT

12. The Editor hereby assigns to the Publisher the **full copyright** in the Work, which assignment the Publisher hereby accepts. Consequently, the Publisher shall have the **exclusive** right **throughout the world** to publish and sell the Work in **all languages**, in **whole or in part**, including, without limitation, **any abridgement** and substantial part thereof, in book form and in **any other form** including, **without limitation**, mechanical, digital, electronic and visual reproduction, electronic storage and retrieval systems, including internet and intranet delivery and **all other forms** of electronic publication **now known or hereinafter invented**. The assignment of copyright shall include the name of the Work and any additions and alterations in the event of a revision.

- › Publisher contracts restrict everybody, including yourself
- › once you sign away your copyright, you have **no longer the right to use your own material**
 - › it is possible to keep your copyright, depending on the publisher.
Language Science Press requires a non-exclusive license only, no copyright transfer
- › to reuse graphics in subsequent works of yours, you must first ask the new rights holder for permission
- › chasing rights is incredibly annoying
- › publishers will put your content behind a **paywall**, meaning that it can actually be more difficult to access once it is officially published than before
- › publishers vary as to whether and when they allow books to be hosted in repositories
- › check **Sherpa-Romeo** <https://v2.sherpa.ac.uk/romeo/>, which lists the publishers' policies
